Press release announcing the provision of additional "Inclusive Park for Pets"

Press Releases

2021 February

LCSD to provide more Inclusive Parks for Pets

The Leisure and Cultural Services Department (LCSD) announced today (February 4) that more than 30 Inclusive Parks for Pets will be opened in various districts from February 6 (Saturday) to enable park users with or without pets to enjoy park facilities together in an inclusive environment.

As there are more people keeping pets, and in response to the public's requests for the LCSD to open parks for them to visit with pets, the trial scheme of Inclusive Park for Pets was launched on January 1, 2019. Six parks under the purview of the LCSD were opened for members of the public to enter and use with their pets. A survey was conducted at the end of the year to review the effectiveness of the trial scheme, and nearly 80 per cent of the interviewees supported the regularisation of the pilot venues and provision of more Inclusive Parks for Pets.

The LCSD has regularised the six pilot venues and will designate more than 30 additional leisure venues across the territory for use as Inclusive Parks for Pets starting from February 6, after consulting respective District Councils. In all, over 10 Inclusive Parks for Pets are located at promenades or parks nearby to bring vibrancy to the harbourfront areas. Please refer to the attachment for the list of venues.

"The aim of Inclusive Parks for Pets is to enable members of the public who bring their pets into existing parks to use park facilities together in an inclusive environment, thereby promoting exchanges and integration in the community. When identifying suitable locations as Inclusive Parks for Pets, the department has considered different criteria, including the demand of the public for these facilities, size and location of the venues, ancillary facilities and their usage. Additional supporting facilities such as dog excreta collection bins and hand-washing facilities will be provided for the convenience of pet owners and their pets in light of the actual circumstances. Cleaning work will also be stepped up," an LCSD spokesman said.

"The LCSD will consider the views of the public on the new arrangements and open up more venues for pets in the future if a positive response is received," the spokesman added.

Park users should observe and follow the users' code for Inclusive Parks for Pets. Dog owners should keep their dogs on a leash. They should make sure pets are kept under proper control and are effectively restrained from causing a nuisance or danger to others, and should clean up any mess caused by their pets and keep the environment clean and hygienic.

“Inclusive Park for Pets”

Background

To enable park users and members of the public who bring their pets into parks to use park facilities together in an inclusive environment, the Leisure and Cultural Services Department (LCSD) launched the trial scheme of “Inclusive Park for Pets” by opening up 6 LCSD parks for use by pets in 2019. As the trial scheme was well-received, LCSD has regularised the arrangement by providing more “Inclusive Parks for Pets” in various districts starting from 6 February 2020 so as to meet public demand for opening up more existing parks for shared-use of park facilities among pet owners and their pets.

What is the difference between “Inclusive Park for Pets” and pet garden?

Pet gardens are specifically designed for use by pets and are normally provided with fences and double pet gates to prevent pets from running away. Ancillary facilities normally include dog excreta collection bins/dog latrines, hand-washing facilities. Some venue are even provided with play equipment and drinking fountains for exclusive use by pets as well as amenity lawns, etc.

The “Inclusive Parks for Pets” are not specifically designed for use by pets. The design concept is to open up the existing parks for members of the public to visit with their pets. LCSD will provide additional basic ancillary facilities, such as dog excreta collection bin and hand-washing facilities, etc., at the venues for use by members of the public and their pets in light of the actual circumstances and needs. The “Inclusive Parks for Pets” are not specifically designed for use by pets. To keep in line with the concept of enabling the shared use of park facilities among different users, members of the public are required to keep their pets on a leash and under proper control in the venues so as to avoid causing nuisance to other users.

Users’ Code for “Inclusive Park for Pets”

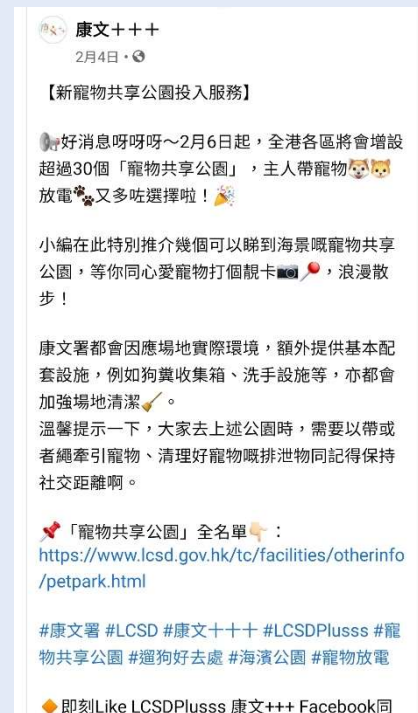

- (I) Keep your dog on a leash.
- (II) Make sure your pet is kept under proper control and effectively restrained from causing nuisance or danger to other people or pets.
- (III) Clean up the faeces of pets.
- (IV) Keep the environment clean and hygienic.
