

Open Space Projects at Kai Tak Harbourfront Area

Harbour Unit
24 February 2017

2017 Policy Address - Paragraph 127:

*“There is a general consensus in the community for the need of a new mindset in taking forward harbourfront enhancement. However, it is premature to establish a statutory Harbourfront Authority. The Government has decided to first **partner with the Harbourfront Commission** and implement harbourfront enhancement initiatives through **a dedicated team with dedicated funding**. The aim is to further extend the waterfront promenade along both sides of the Victoria Harbour, beautify areas in the vicinity and improve accessibility of the waterfront. The Government **has earmarked \$500 million** for the first stage for taking forward harbourfront development.”*

2017 Policy Address

Dedicated Funding

- * By making use of the dedicated funding, harbourfront enhancement projects within the budgetary confines could go ahead without the need to compete for resources internally
- * HC invited the three geographic Task Forces to consider projects proposed to be funded under the dedicated funding at its meeting on 23 January 2017

Suggested Guiding Principles

- * Land is vacant or would be available shortly
- * Close to waterfront and likely to extend (or enhance) waterfront promenade
- * Scale of works is likely to be able to be covered by the fund
- * Strong local aspirations
- * No other available funding source
