Tsuen Wan and Kwai Tsing

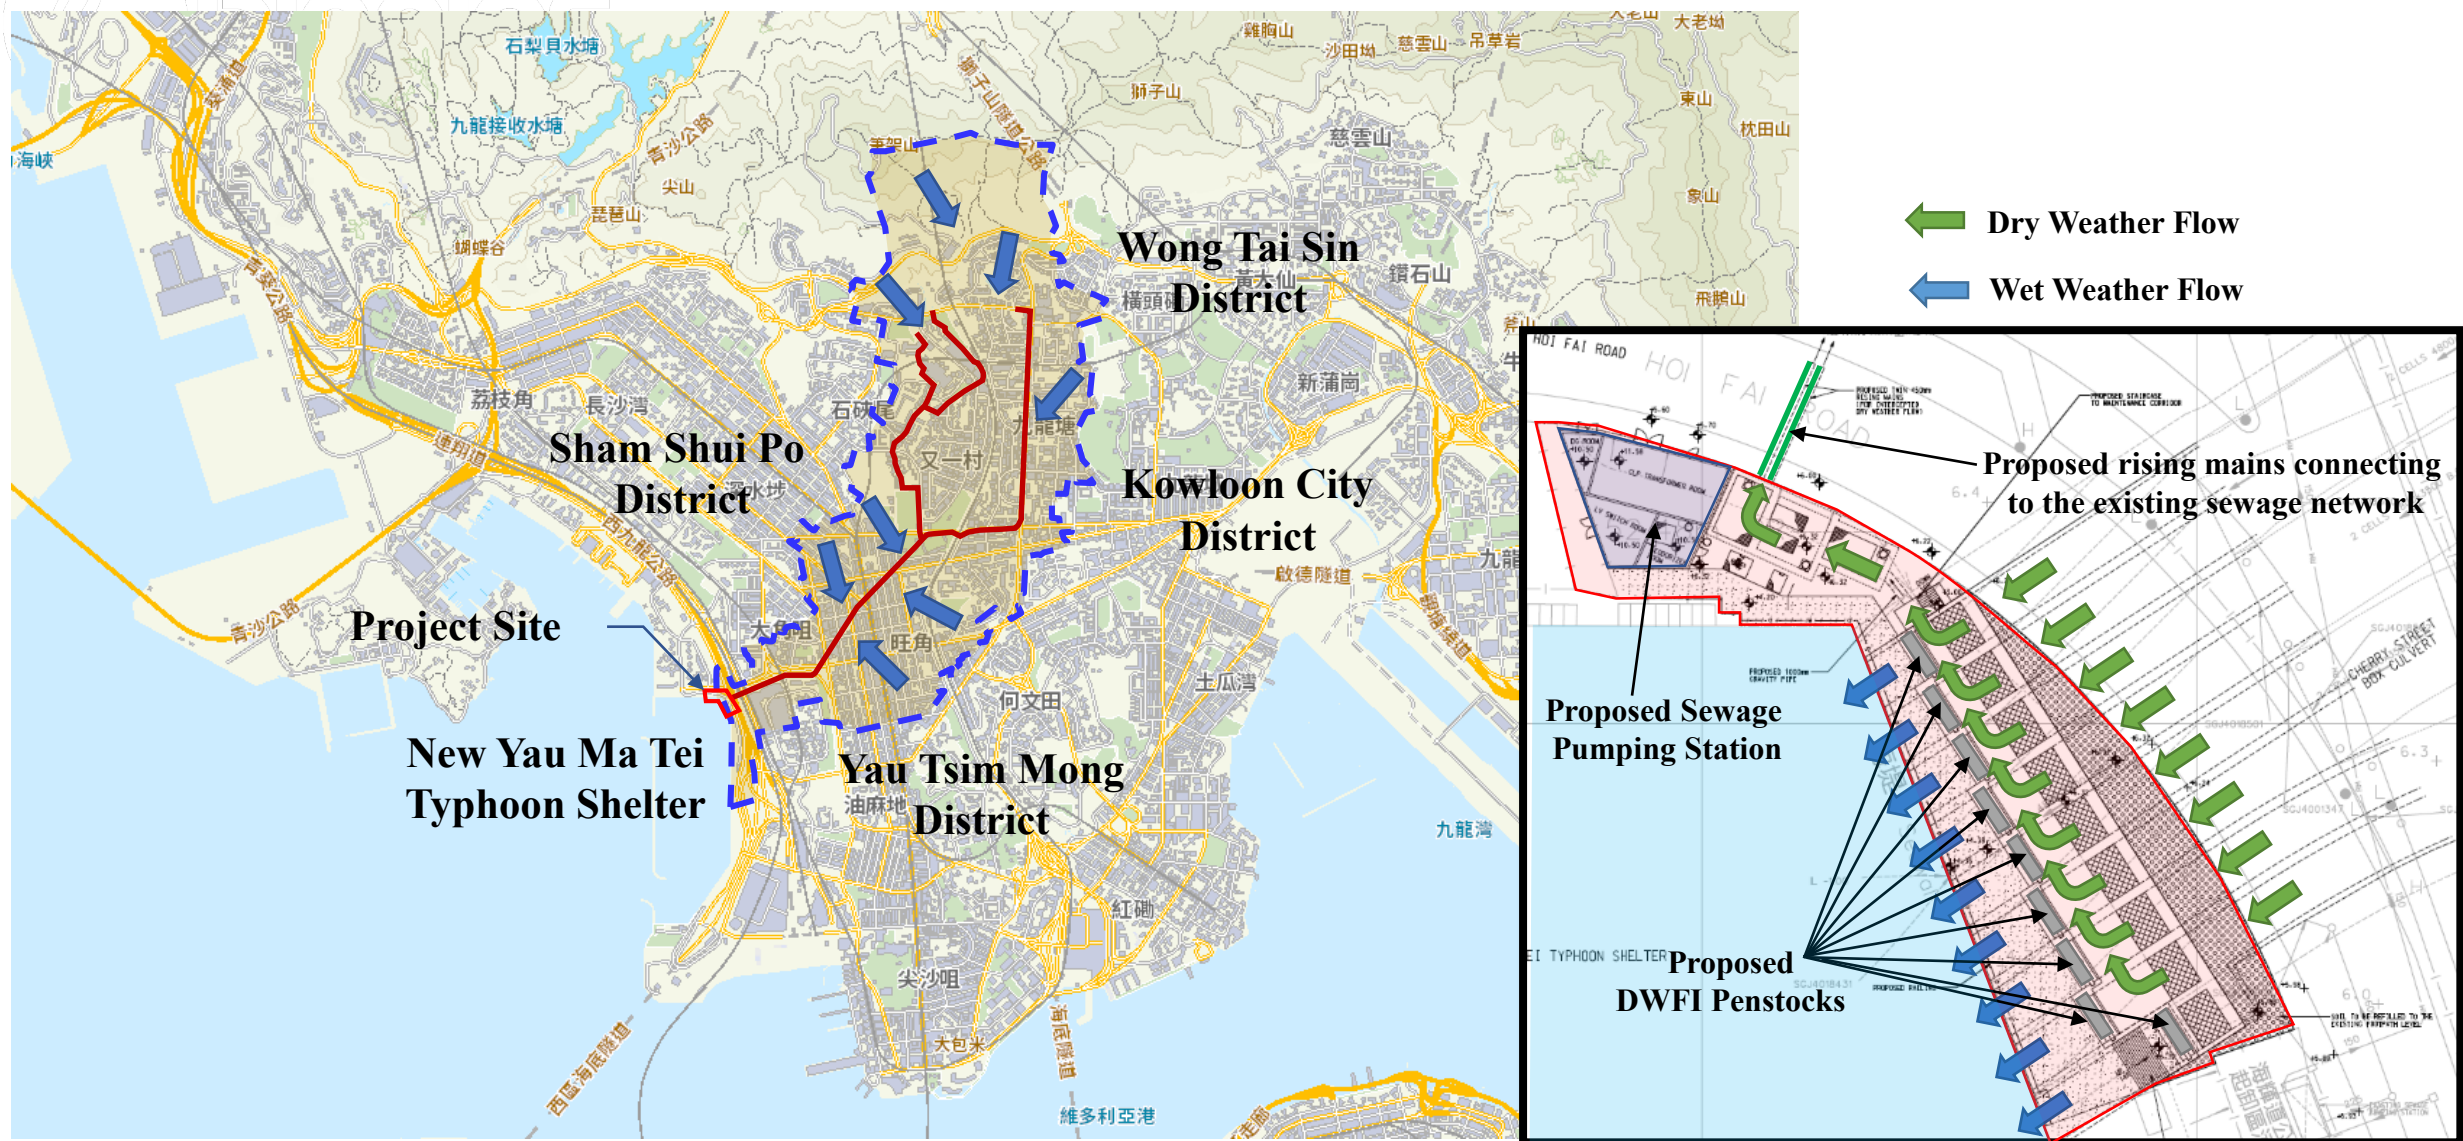

Introduction of Play Space and Revision of Landscaping Works at the Dry Weather Flow Interceptor at Cherry Street Box Culvert

櫻桃街箱形雨水渠旱季截流器的遊樂空間及最新園境工程介紹

Date: 10 June 2021

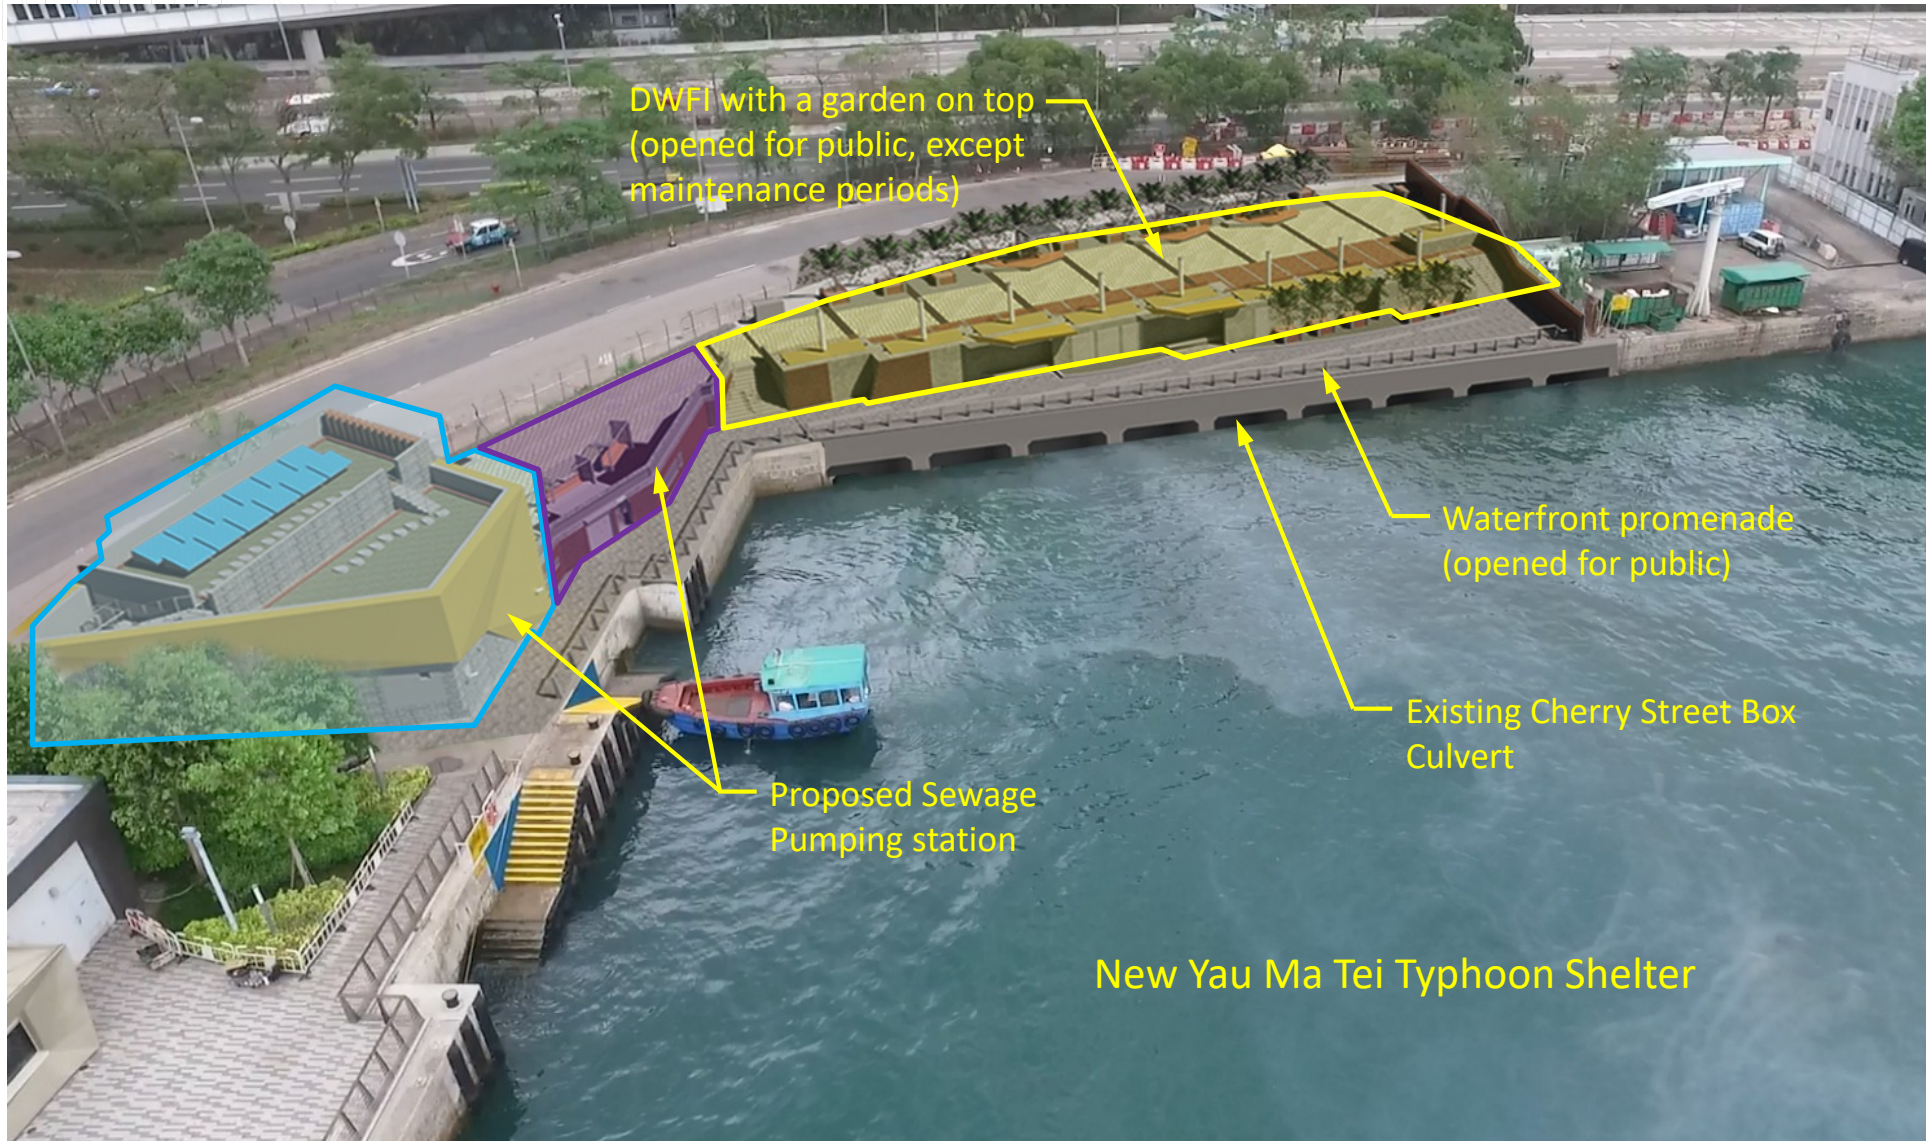

Location Plan and Layout of the Dry Weather Flow Interceptor (DWFI) of Cherry Street Box Culvert

← Dry Weather Flow
 ← Wet Weather Flow

— Stormwater Trunk Mains Catchment Area

Previous Revised Scheme Approved in 2013

Reason for the Design Change During Construction & Introducing the Concept of Co-using Open Space Area

The Hong Kong Special Administrative Region of the People's Republic of China
The Chief Executive's 2019 Policy Address

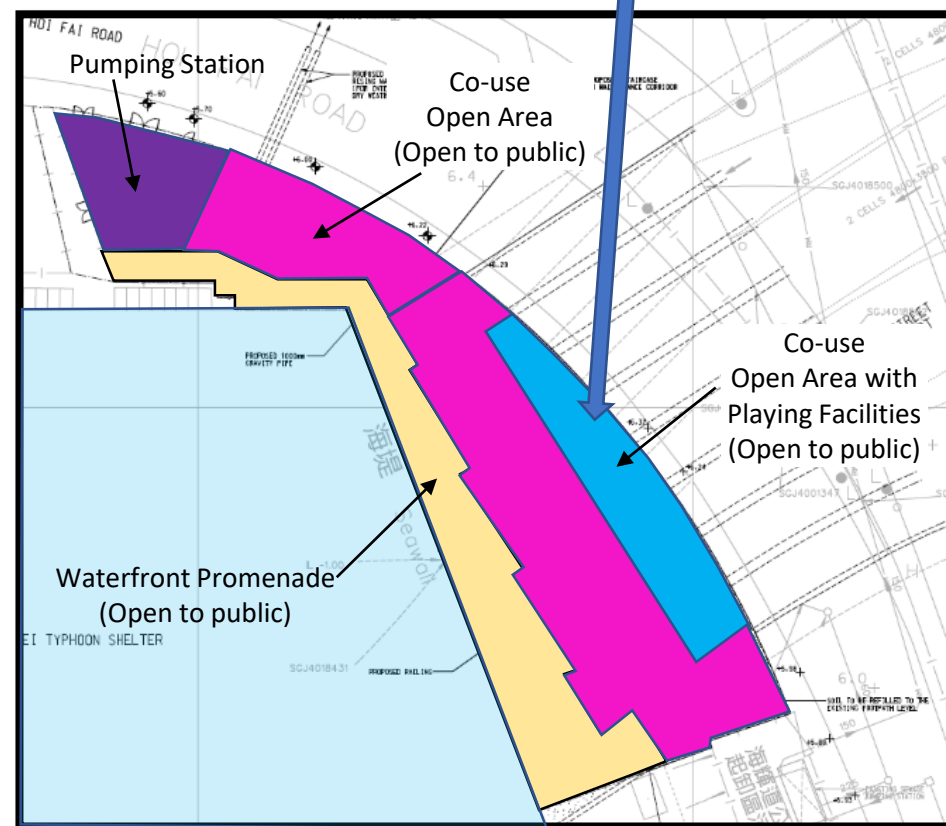

“...public open spaces in districts should provide interesting play areas for children.”

『...地區的公共空間應為兒童提供一個有趣味的遊玩地方。』

- To echo Chief Executive's 2019 Policy Address
- To enhance the use of open space on DSD facilities
- To promote the “land co-use” principle

Bringing the concept of “Mini City” into the Open Space

Design Idea of Play Space

NEON LIGHT 霓虹燈

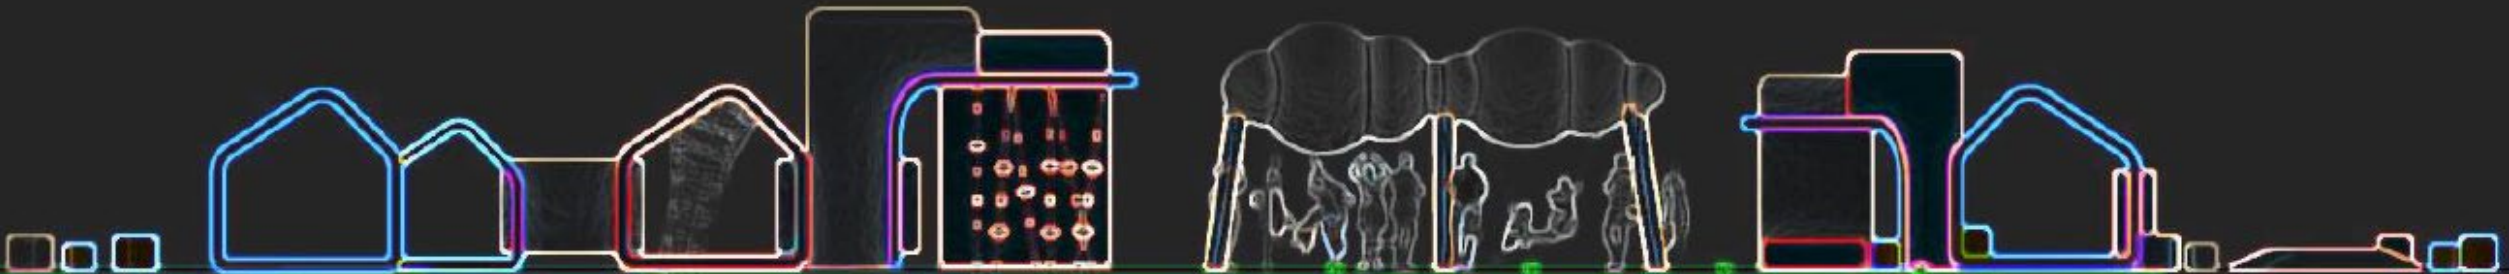

SKYLINE 天際線/城市輪廓

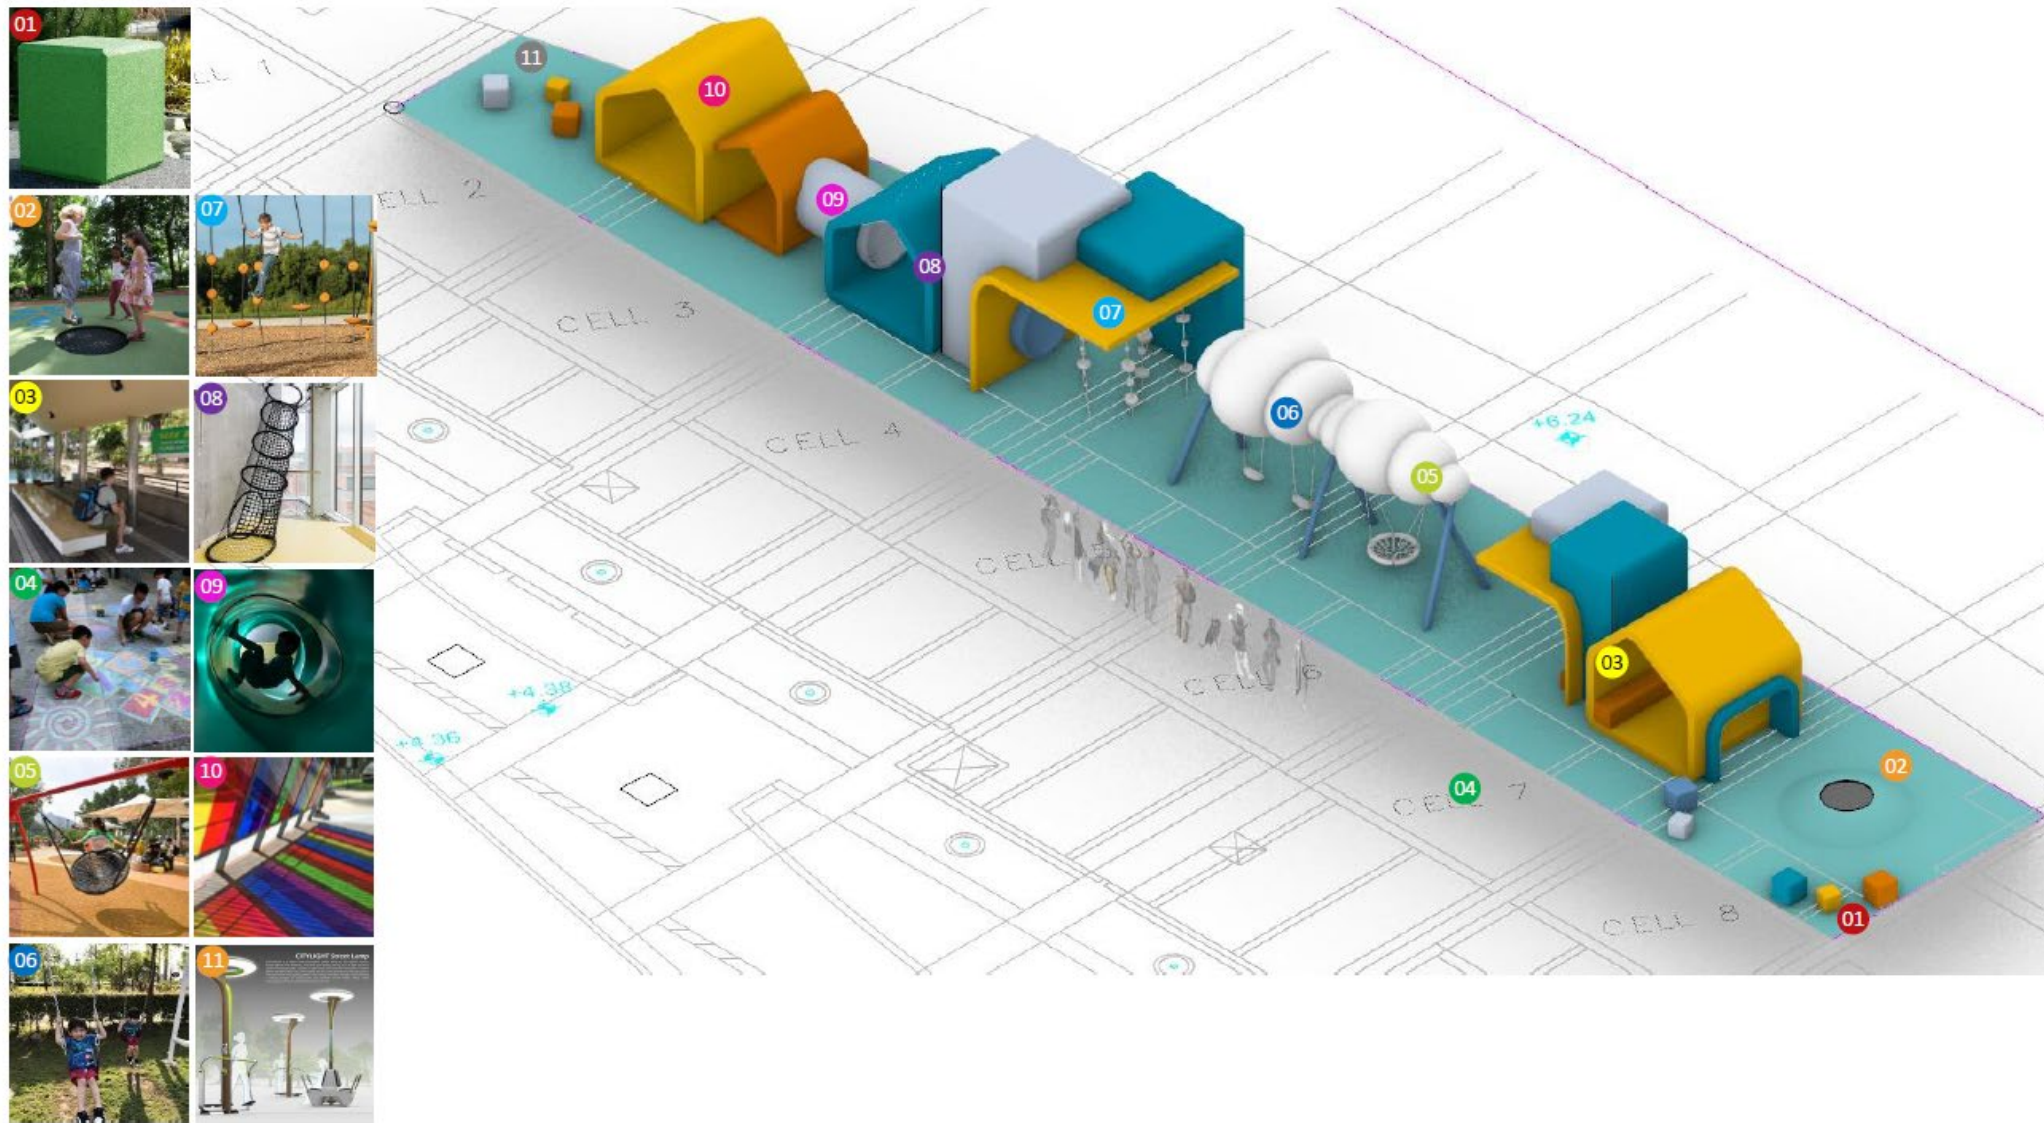

FAIRY 童話

趣緻城市 MINI CITY

Play Space Layout

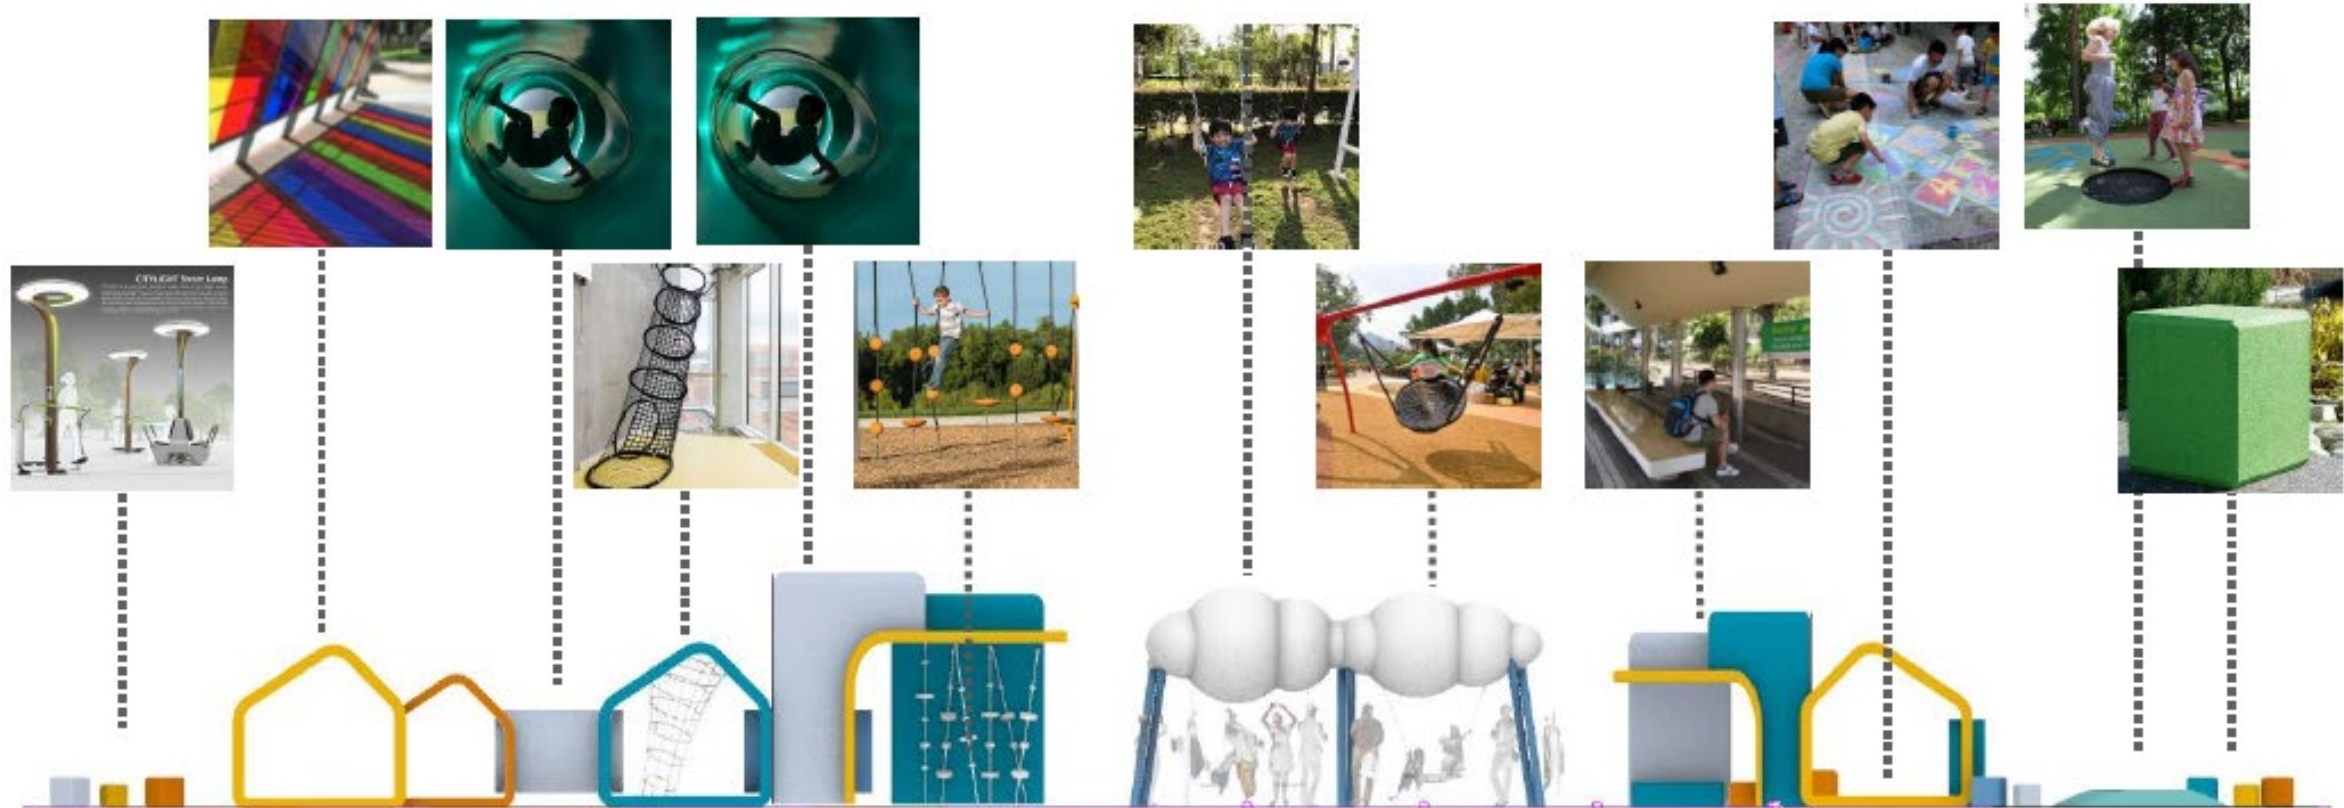

The “Mini City” Play Space and Revised Landscaping Works

Play Components

Playsets offering diversified play experiences of physical play, sensory play and social play through bouncing, balancing, swinging, climbing and tunnelling.

Design Objectives:

- Harbourfront Enjoyment
- Imaginative Play Space
- Co-location of Facilities

Enhancing Connectivity to the Play Space

Pedestrian signs on poles to be erected along the pedestrian access route from MTR Exit A1 to “Mini City”.

Thank You!
