Victoria Harbour and its harbourfront belong to the people of Hong Kong and future generations and should be treasured and wisely administered in accordance with the Protection of the Harbour Ordinance and good planning principles.

The harbourfront should be used for the primary purpose of enhancing public enjoyment of the harbour as a harbour and not for the purposes of (a) property development; (b) commercial interests; and (c) raising Government revenue.

3. Enhancement of Harbour Values

Enhancement of the harbour as a harbour should be for the promotion of its scenic, environmental, social and economic values for the benefit of the community.

4. Genuine Public Participation

The planning and development of the harbour and harbourfront should be administered and controlled by the Hong Kong public through genuine public participation on the Harbourfront Authority which should be accountable to the public.

5. Selection Process of Representatives

The process of selection of the Chairman, Vice Chairman and Members of the Harbourfront Authority with regard to their (a) **nomination**; (b) **scrutiny**; and (c) **appointment** must be open and transparent, without fear or favour, truly representative of the public and should ensure that they are both able and willing to serve the community.
